Preamble

The following working rules are adopted by the Members of Local 110 of the International Association of Heat and Frost Insulators and Allied Workers, with the most recent changes having been made at the meeting on January 22, 2026.

Whereas, most improvements in working conditions for working people in Alberta were accomplished by the efforts of organized labour, and

Whereas the welfare of the Members of a Union can best be protected and advanced by their united action, therefore, we have organized this Local Union. It is our own creation, time, money and labour has made it what it is, an organization to be proud of. Officers and Staff must be respected, Committees must attend to their duties; assessments, fines and dues must be paid promptly. Read your Bylaws and remember them; ignorance of them will not be an excuse for their violation.

Any portion of these Bylaws when conflicting with new federal or provincial legislation, or by the signing of a Local Union Collective Agreement or as to conflict with the Constitution and Bylaws of the International Association of Heat and Frost Insulators and Allied Workers will be invalid and if need be amended by action of the Executive Board.
